Harnessing the blockchain edge.

AN OPERATING PLATFORM FOR DIGITAL OPPORTUNITIES

Disciplined access to digital opportunities.

Private company overview — draft for discussion. Not for public distribution.

01 — INVESTOR OVERVIEW

A focused digital *opportunity* operating company

Block Edge Partners Ltd structures and operates selected opportunities across peer-to-peer digital asset execution, market-neutral strategies and early-stage venture participation.

OUR APPROACH

We seek repeatable opportunities where execution, controls and disciplined capital allocation can create an edge. Each product has distinct profile.

01

Structured Access

Defined products and participation terms, with capital allocated to a specified strategy.

02

Disciplined Execution

Operating procedures, transaction records and risk limits designed around each strategy.

03

Aligned Outcomes

The company succeeds when the underlying strategy performs for participating partners.

02 — SERVICE SUITE

Three distinct *opportunities*. One operating platform.

01

03 — FLAGSHIP PRODUCT

Why *P2P Edge*?

A practical opportunity built around real USDT transaction demand.

BLOCKEDGE PARTNERS LTD

THE CORE OPPORTUNITY

We leverage our position as a company to capture small execution spreads repeatedly across completed peer-to-peer transactions.

HOW THE OPERATING CYCLE WORKS

01

SOURCE

Identify eligible P2P transactions and available liquidity.

02

EXECUTE

Buy and sell digital assets within defined operating limits.

03

RECONCILE

Record completed trades, balances, fees and realized results.

04

REPEAT

Recycle available capital through new eligible transactions.
